“ *Ever since we returned to the United States from Honduras, my family and I were welcomed into the Geere's family celebrations. We are related through my sister, but we have always been treated as part of the family. We have years of memories of Thanksgivings and Christmases and other special occasions spent with dear Ana. We will never forget her ever present smile and the delight she took at being with her family and extended family. We have precious memories of playing games in the living room and watching the kids hunt for easter eggs together over the years until most of them have gotten just too big. We will miss her presence deeply and always feel love for this special, warm, happy lady with her cute Ecuadorian accent. We are so glad she believed in the saving grace of Jesus and is now in His safe and wonderful care, out of pain at last. We love you Ana....te amamos mucho. From the Fortin clan...Kimmey, Luis, Kris, Heidi, Brian, Angel, Nate and Wesley Fortin.*
