“ Hi Johnny. We met at Terry York when I was a young kid who had a lot to learn about life. You always invited me to your parties and became a true friend. You were there to help me move when I bought a house. There are good friends that you meet in life that are true and good, you are a true friend. You will always be missed. Take care Johnny, I hope your driving your favorite Buick into the sunset.

“ It doesn't seem that long ago that we were kids playing basketball, riding skate boards and playing baseball in the street. I still think of those times and smile. I always felt that we would retire and do things together again. Your untimely passing was a tragedy that left a gaping hole in the hearts of many. You were the little brother that I looked up to. Everyone always came to you for everything because you could always fix anything from a failing alternator to a broken heart (and so much more). Rest in peace Johnny.

“ I miss you so much it hurts, your children miss you so much they are not the same, they are hurting since you left this earth, and so have I. I miss your smile, your quirky laugh/ dance duo. I'm so glad our 2 children that look so much like you will carry on your name and the grandkids. God Bless you our Hero til we meet again. ?

“ Dear Johnny, I always thought the most of you!! You not only were a Rolls Royce mechanic. You loved to race cars like me!! I last shook your hand at Sam & Linda's 40th wedding party. You probably did not remember me, that is ok. I will always miss you ! God Bless You , Bill Sluka

“ Dear Johnny I'll always cherish the mornings I sat with you and we shared stories and laughed. We talked about future trips we were all going to go on together. Unfortunately you took your final trip before any of that was possible. I'll always remember how sweetly and sincerely you said, "Thank you Linda," for any small act of kindness I performed for you like warming you coffee, covering your feet with the afghan when you felt a chill, helping you out of your recliner, and any other thing I could do to make you feel comfortable. RIP dear Johnny.zF59U

“ Still searching for the right words....but I am still in shock that you are no longer with us. We met when we were just kids and I was new to this country, so many memories yet I wish we would have spent more time together. I am so glad to see that you got your log cabin that you always talked about since 1991. You were my favorite from the "M" clan. You leave us with great memories and wisdom. You will be missed by so many who's lives you ave touched.
