“ Bill and I have worked together at Emil's Hair Design for many years and in the past year, we have actually worked side by side. We have had many talks about our personal lives over these past months and the one thing that was a constant in his life was his love and concern for his Mom. She is in her nineties and Bill, along with her caregivers took very good care of her. He made sure she ate well, took her to doctor and hair appointments and checked in with her several times a day when he was at work. He was very proud of the fact that she walked several blocks every day at her age. Bill, the barber had many clients that he shared stories with and it was obvious that they thought of him as family, especially the children. When any of his little ones would come for a haircut, he always brought them a toy or gave them candy. They never minded getting their haircut by Bill. In fact, they seemed to look forward to it!! Rest in peace, Bill, and know that you will be missed by the many who knew and loved you. Thank you for all the stories you shared and for the kindness you showed toward others. You have touched the lives of many and will always be remembered as "Barber Bill".
